

## Materials for Krispy Synthesis

- Box of Rice Krispies (1 large box good for 1 class)
- M&Ms (1 bag good for a class)
- chocolate chips (1 bag)
- Red food dye
- Marshmallows (at least 3 bags for 1 class... do not use mini marshmallows)
- 1 lb butter (I cut them up into tablespoon slices... so kids can take 3 slices at a time)
- spray oil
- gummie bears (I use this as a mutation in case students do not do the translation correctly...turns the krispie into cement)
- reese cups (another distraction)
- 3 microwaves (if possible)
- 3 large glass bowls (for clean up have kids put a little water and soap into bowl... nuke bowl for 2 minutes... repeat until marshmallow comes off)
- measuring cups and spoons
- wax paper
- butter knives
